**REPLY TO OPPOSITION TO PETITION FOR  
RECONSIDERATION OF CERTIFICATION**

Time Warner Cable Inc. (“Time Warner Cable”), pursuant to Section 1.106(h) of the Commission’s rules,<sup>1</sup> hereby submits this Reply to the Opposition filed by the Massachusetts Department of Telecommunications and Cable (the “MDTC”) in response to Time Warner Cable’s Petition for Reconsideration of Certification of the MDTC’s Form 328 certification request, specifically as it pertains to the community of the Town of Adams, Massachusetts.<sup>2</sup> For the following reasons, the Bureau should confirm that the Town of Adams is subject to effective

<sup>1</sup> 47 C.F.R. §§ 1.106.

<sup>2</sup> Time Warner Cable initially petitioned (MB Docket 13-92, CSR-8778-E) the Commission on March 27, 2013 for a finding that effective competition was present in Adams, relying on penetration data from March 2013. On February 5, 2015, the Bureau denied that Petition after applying a seasonal discount. *Time Warner Cable Inc., Petition for Determination of Effective Competition in Three Communities in Massachusetts*, 30 FCC Rcd 1067 (Med. Bureau 2015). On March 6, 2015, Time Warner Cable filed a Petition for Reconsideration arguing, for the same reasons stated herein, that the Bureau erred in applying such a discount. Time Warner Cable’s March 6, 2015 Petition for Reconsideration also included updated penetration data (from January 2015) establishing that even with a seasonal discount, effective competition was present in Adams. The Petition for Reconsideration remains pending. So that Time Warner Cable is not prejudiced by the Bureau’s erroneous February 5, 2015 order, the Commission should make clear that Time Warner Cable was subject to effective competition back to March 27, 2013 or, in the alternative, to March 5, 2015.

competition under the competing provider test of Section 623(I)(1)(B) of the Communications Act and thus not subject to rate regulation, and reject the MDTC's attempted certification.<sup>3</sup>

Time Warner Cable's Petition for Reconsideration demonstrated that the MDTC's effective competition analysis in its Form 328 filing was flawed in that the SBCA's DBS subscriber count was based on an incomplete set of Zip codes overlapping the Town of Adams. Time Warner Cable identified several nine digit Zip codes that were not included in the SBCA report that correlate to locations within the Town of Adams. Specifically, Time Warner Cable identified ten additional Zip codes (01220-1055, 01220-1220, 01220-1586, 01220-1593, 01220-1661, 01220-1667, 01220-1783, 01220-1787, 01220-1985 and 01220-2073) associated with locations within the boundaries of the Town of Adams, but which were not included in the MDTC's penetration showing.<sup>4</sup> Time Warner Cable provided maps from MelissaData, MDTC's own data provider, confirming that indeed each of these ten Zip codes correlates with locations in the Town of Adams.<sup>5</sup> Time Warner Cable then submitted these ten Zip codes to the SBCA for an update to the Adams' subscriber count. SBCA's update demonstrated an additional eight DBS subscribers that should have been included in the Adams' DBS subscriber count.<sup>6</sup> Those additional identified DBS subscribers increased the Adams' competing provider count to 587 subscribers, or 15.02 percent of 3907 households in the town, exceeding the 15 percent statutory threshold for confirming that indeed effective competition exists in the Town of Adams.

In its Opposition, the MDTC responds with two arguments. First, the MDTC argues that none of the additional ten zip codes contains a "residence" and as such any DBS subscribers

identified at those locations should not count for purposes of calculating competing provider penetration. Second, the MDTC argues that even if all the identified zip codes and DBS subscribers count, they should be discounted to account for the percentage of seasonal homes in Adams, and that discount causes the penetration figure to dip below the 15 percent threshold. For the following reasons, both of these arguments fail.

**A. Each of the Additional Identified Ten Nine Digit Zip Codes Correlates With a “Residence” Within the Town of Adams.**

Information from the United States Postal Service contradicts the MDTC’s claim that none of the additional ten zip codes identified by Time Warner Cable contains a “residence.” As such, any DBS subscribers identified in those ten Zip codes must count for purposes of calculating competing provider penetration in the Town of Adams.

In hundreds of effective competition proceedings involving the competing provider test petitioners have submitted, and the Commission has always blessed, nine digit Zip code identification reports prepared by Media Business Corp. (“Media Business”).<sup>7</sup> Indeed, the Media Bureau has specifically blessed just such a Media Business report specific to the Town of Adams and surrounding communities as a valid source of overlapping Zip codes.<sup>8</sup> Attached hereto as Exhibit A is the Media Business Zip code identification report for Adams and this report notably includes each of the ten Zip codes identified by Time Warner Cable in its Petition for Reconsideration.

---

<sup>7</sup> See e.g., *Time Warner Cable Inc., Petition for Determination of Effective Competition in Three Communities in Massachusetts*, 30 FCC Rcd 1067, ¶ 10 (Med. Bureau 2015)(confirming the use of Media Business nine digit Zip code reports as a valid source of the universe of Zip codes overlapping a franchise area, including in the Town of Adams, Massachusetts).

<sup>8</sup> *Id.*

The Media Business report also confirms that each of these ten Zip codes correlates with “residences” in the Town of Adams. The report provides Zip Code Record Type identifiers from the United States Postal Service that indicate what type of building or buildings are associated with each particular Zip code.<sup>9</sup> Commercial businesses are coded as “F” for firm, single family residential homes are coded as “S” for street, multi-residence dwelling unit buildings (such as apartments and condominiums) are coded as “H” for high-rise, commercial drop boxes are coded as “P” for post office box, and other addresses are coded as “G” for general delivery.<sup>10</sup> The report indicates that each of the additional ten Zip codes at issue are indeed associated with “residences.” Specifically, Zip codes 01220-1055 and 01220-1220 are indicated as “S” for single family residential homes, and Zip codes 01220-1586, 01220-1593, 01220-1661, 01220-1667, 01220-1783, 01220-1787, 01220-1985 and 01220-2073 are indicated as “H” for multi-residence dwelling unit buildings.<sup>11</sup> Accordingly, all ten Zip codes should count as “residences” and any DBS subscribers identified with them should fully count in the Adams’ competing provider penetration calculation.

### **B. Commission Precedent Contraindicates Discounting Competing Provider Penetration For Seasonal Homes.**

Commission precedent indicates that the MDTC’s proposed discounting of the Adams’ DBS subscriber figures to account for the percentage of seasonal homes in Adams would be improper. In *Charter Entertainment I, LLC*, a case involving the MDTC, the MDTC had opposed a cable operator’s effective competition showing by arguing, as it does here, that the DBS subscriber count for a community should be discounted by a percentage that reflects the

<sup>9</sup> See Media Business ZIP+4 Identification Report attached as Exhibit A.

<sup>10</sup> *Id.*

<sup>11</sup> *Id.*

ratio of seasonal and vacation homes in the community to the overall dwelling units in the community.<sup>12</sup> The Bureau there rejected the MDTC's proposed discounting, finding it was not factually specific enough to overcome the cable operator's figures. According to the Bureau, in order to make a case for discounting, the MDTC needed to go much further than simply pointing to Census numbers and deriving a discount ratio, and instead would be required to specifically identify and count actual non-occupied households in a community:

Undoubtedly, the MDTC is familiar with the Communities. It could have found out, with less effort than Charter, nine-digit zip codes that encompass temporary dwellings such as dormitories and assisted living facilities, and deducted SBCA's number of DBS subscribers there from Charter's numerators. Instead of using facts, however, the MDTC rested on generalities. That is not enough to rebut the factual evidence presented by Charter.<sup>13</sup>

There is no distinguishing factor between the MDTC's current proposed discounting based on ratios of Census numbers and the Bureau's previous rejection of such discounting in *Charter Entertainment I*. In both instances the MDTC has failed to provide any support other than "generalities" based on Census figures, and as such the Bureau here must here likewise reject discounting the DBS subscriber count.

The MDTC's citation to *Charter Communications (New Hanover County, NC)*<sup>14</sup> and *Comcast Cable Communications, LLC (Fourteen Florida Communities)*<sup>15</sup> in support of discounting is unavailing. First, *Charter Communications (New Hanover County, NC)* is easily distinguishable from the current situation. In that case, the Bureau "discounted" for seasonal

---

<sup>12</sup> 28 FCC Red 13989, ¶ 13 (Med. Bur. 2013) ("[T]he MDTC objects that all of Charter's ratios overstate Competing Provider subscribership. The MDTC correctly notes that the Company's numerators (DBS subscribers from SBCA, for example) include dwellings that do not count as "households," such as seasonal or vacation homes, and other temporary dwellings; but that the Company's denominators ("households" as defined by the Census) do not include such dwellings. This mismatch, the MDTC objects, overestimates Competing Provider subscribership.")

<sup>13</sup> *Id.*

<sup>14</sup> 25 FCC Red 2289 (Med. Bur. 2010).

<sup>15</sup> 22 FCC Red 1691 (Med. Bur. 2007).

homes, but applied the discounting only to the denominator figure submitted by the cable operator, as the operator had improperly submitted the Census figure for total homes in the franchise area and not households, the proper figure.<sup>16</sup> Thus, in *Charter*, discounting to remove seasonal and vacant housing from the denominator was proper to correct the submission of an incorrect denominator figure. That situation that does not exist here as the correct household figure for Adams has been used by both parties and there is no dispute as to its validity.

*Comcast Cable Communications, LLC (Fourteen Florida Communities)* actually supports not discounting the DBS subscriber count. While the Bureau in that case acknowledged arguments made by opposing parties that the DBS figures for certain communities should be discounted to account for seasonal homes, in making its decision the Bureau rejected using any adjustment calling the opposing parties arguments in favor “unsupported” and “lacking merit.”<sup>17</sup>

As explained by the Bureau

We accept the data, including revised Exhibit A, provided by Comcast as establishing a reasonable basis for finding that DBS penetration exceeds 15 percent in the Franchise Areas. These penetration rates provide a sufficient margin of error with respect to the 15 percent competing provider test threshold, overcoming any concerns raised by unsupported arguments about DBS penetration imbalances in the subject Franchise Areas.”<sup>18</sup>

Such reason applies equally here and the MDTC’s call for discounting should be rejected.

### **C. Even If the DBS Subscriber Count is Discounted, Effective Competition Still Exists In Adams.**

The SBCA DBS subscriber data previously submitted into the record to determine whether or not competing provider penetration in Adams exceeds the 15 percent threshold is now

---

<sup>16</sup> 25 FCC Rcd 2289, ¶ 15 (Med. Bur. 2010).

stale. That data was only accurate as of September 30, 2015,<sup>19</sup> and SBCA now has updated DBS subscriber figures current to December 31, 2015. Time Warner Cable has requested and obtained an updated DBS subscriber count for Adams based on the Media Business list of zip codes attached as Exhibit A. That report indicates that there are now 592 DBS subscribers in Adams or 15.15 percent of the 3907 Adams' Census households, exceeding the 15 percent statutory threshold for confirming that indeed effective competition exists in the Town of Adams. And even if that count is improperly discounted by .78 percent as the MTDC advocates, there are still 587 DBS subscribers indicated corresponding to 15.02 percent of Adams households, again exceeding the 15 percent statutory threshold. As the 15 percent threshold is exceeded whether or not discounting is applied, there can be no doubt that effective competition currently exists in Adams.

## CONCLUSION

For the foregoing reasons, there should be no doubt that the Town of Adams is subject to effective competition under the competing provider test and thus the MDTC's certification Form 328 filing should be rejected with respect to the Town of Adams. Undersigned counsel has read the foregoing Reply to Opposition to Petition for Reconsideration of Certification, and to the best of such counsel's knowledge, information and belief formed after reasonable inquiry, it is well grounded in fact and is warranted by existing law or a good faith argument for the extension, modification or reversal of existing law, and is not interposed for any improper purpose.

Methodology: Direct-To-Home (DTH) subscriber data reflects aggregated DIRECTV and DISH Network residential subscriber totals. The following data collection procedures are applied by Members in the normal course of business: a) single accounts with multiple receivers are only counted once; b) commercial and test accounts are not included; c) each occupied unit served in a multiple dwelling unit building has been counted as a separate residential subscriber; d) zip codes are taken from service locations (not billing addresses, where different); e) inactive accounts are routinely removed; f) invalid (undeliverable) addresses have been corrected where known; g) courtesy or complimentary accounts are included; and h) zip code information for Members' subscribers is periodically updated to reflect changes to zip codes by the United States Postal Service.
